Honor Cord Information

Alpha Delta Nu Chapters will provide honor cords for their graduates. The generally accepted color for nursing is apricot; however, some chapters have determined that peach is a better color choice as most apricot cords appear bronze. You are free to make the determination of the color you will use for your program. An excellent cost-saving suggestion is to order the double cord and split each into two single cords.

Most Alpha Delta Nu Chapters will purchase the honor cords through their institution's graduation supply source. You may also check with faculty advisors of other honor societies within your institution to determine where they obtain their honor cords from. If your institution cannot assist you in finding honor cords for your graduates, try one of the following resources:

The Honor Cord Company

<https://thehonorcordcompany.com/collections/all-products/products/single-graduation-honor-cords>

put 2 single cords together

These companies are included here because they provide honor cords in peach and/or apricot colors. OADN does not endorse these companies and makes no reference to the quality or service provided by these companies. They are provided simply as possible resources in the event that your institution does not have a graduation vendor that can meet your needs.
